

LAKE ST. CLAIR
Canadian Watershed Coordination Council

The Lake St. Clair Canadian Watershed Draft Technical Report: An examination of current conditions

The Lake St. Clair Canadian Watershed Draft Technical Report: An examination of current conditions was released as a draft document in January 2005 using best available information and data up to and including the year 2003.

ACKNOWLEDGEMENTS

The Lake St. Clair Canadian Watershed Coordination Council, under the direction of the Four Agency Management Committee, prepared *The Lake St. Clair Canadian Watershed Draft Technical Report: An examination of current conditions*.

Research and writing: Orrie Wigle, contractor to the St. Clair Region Conservation Authority

Writing and editing: Jennifer Vincent, Environment Canada

Editing: Elizabeth Wright, Ontario Ministry of Natural Resources

Agencies and individuals that contributed to the report are:

- Environment Canada: Laurie Maynard, Robert McCrea, Scott Painter, Gary McCullough, Jennifer Vincent
- Fisheries and Oceans Canada: Fish Habitat Management: Norm Smith
- Fisheries and Oceans Canada: Canadian Coast Guard: Joanne Munroe
- Ontario Ministry of the Environment: Ted Briggs, Maureen Looby, Stewart Thornley
- Ontario Ministry of Natural Resources: Elizabeth Wright
- Ontario Ministry of Agriculture and Food: Peter Roberts
- Essex Region Conservation Authority: Matthew Child
- Lower Thames Valley Conservation Authority: Jack Robertson
- St. Clair Region Conservation Authority: Patty Hayman, Orrie Wigle
- Upper Thames River Conservation Authority: Chris Harrington
- Walpole Island First Nation: David White

Additional contributions were received by:

- Agriculture and Agri-food Canada
- Health Canada

Mapping and Geographical Information Systems support was provided by:

- Chris Durand, St. Clair Region Conservation Authority

Layout and printing coordination was provided by:

- Upper Thames River Conservation Authority
